SAN FRANCISCO DIVISION

EVERETT HOGGE and PRISCILLA
HOGGE,

Plaintiffs,

vs.

A.W. CHESTERTON COMPANY, *et al*,

Defendants.

) Case No.: C07 2873 EDL

)
) **DECLARATION OF STEPHEN J. HEALY**
) **IN SUPPORT OF PLAINTIFFS' MOTION**
) **FOR REMAND AND IN SUPPORT OF**
) **PLAINTIFFS' MOTION FOR ORDER**
) **SHORTENING TIME FOR BRIEFING**
) **AND HEARING OF PLAINTIFFS'**
) **MOTION FOR REMAND**

)
) [28 U.S.C. §§ 1441-1447; F.R.C.P. 7(b); ND CA Local
) Rule 7-1]

) Current Hearing Date: July 10, 2007

) Proposed Hearing Date: June 19, 2007

Time: 9:00 a.m.

Courtroom: E, 15th Floor

Magistrate Judge: Hon. Elizabeth D. Laporte

I, STEPHEN J. HEALY, declare as follows:

1. I am an attorney admitted to practice law before this Court and all the courts of the State of California and am an associate of PAUL, HANLEY & HARLEY, LLP, attorneys of record for plaintiff herein. The matters stated herein are true to my own personal knowledge, except as otherwise stated. If called upon as a witness, I could and would testify to the following facts.

DECLARATION OF STEPHEN J. HEALY IN SUPPORT OF PLAINTIFFS' MOTION FOR REMAND AND IN SUPPORT OF PLAINTIFFS' MOTION FOR ORDER SHORTENING TIME FOR BRIEFING AND HEARING OF PLAINTIFFS' MOTION FOR REMAND

PAGE 1

2. Attached hereto as **Exhibit "1"** is a true and correct copy of Plaintiff's Complaint for Personal Injury – Asbestos, filed in the San Francisco Superior Court on August 29, 2006, in the case of *Everett Hogge and Priscilla Hogge v. A.W. Chesterton Co., et. al.*, S.F.S.C. Case No. 452846. No federal law is involved in this action.

3. On May 7, 2007, trial in this case commenced in Department 611 of the San Francisco Superior Court before Honorable Diane E. Wick. I attended as the trial attorney handling this case on behalf of plaintiffs. The case proceeded through motions in limine and jury selection. A jury was impaneled, the parties made their opening statements, and I began presenting expert and lay witness testimony and documents plaintiffs' case-in-chief. The jury trial proceeded through Friday, May 25, 2007. The courtroom was dark the week of May 28, 2007, because of the trial judge's calendar. None of JOHN CRANE, INC.'s counsel ever made any mention of their intent to remove this action. I first learned that JOHN CRANE INC. filed a Notice of Removal on the afternoon of Friday, June 1, 2007. On Monday, June 4, 2007, I and defense counsel appeared before Judge Wick to explain that the case was removed. Judge Wick said she would hold the jury for now and that counsel should return to her courtroom with a status report next Monday, June 11, 2007. The jury is time-qualified to remain through June 22, 2007.

4. Attached hereto as **Exhibit "2"** is a true and correct copy of the Proof of Service of Summons and Complaint on HILL BROTHERS CHEMICAL COMPANY in the case of *Everett Hogge and Priscilla Hogge v. A.W. Chesterton Co., et. al.*, S.F.S.C. Case No. 452846.

5. Attached hereto as **Exhibit "3"** is a true and correct copy of the Proof of Service of Summons and Complaint on QUINTEC INDUSTRIES, INC., in the case of *Andres Ginez v. A.W. Chesterton, et. al.*, S.F.S.C. Case No. 455659.

6. Attached hereto as **Exhibit "4"** is a true and correct copy of the Proof of Service of Summons and Complaint on SEPCO CORPORATION in the case of *Everett Hogge and Priscilla Hogge v. A.W. Chesterton Co., et. al.*, S.F.S.C. Case No. 452846.

///

DECLARATION OF STEPHEN J. HEALY IN SUPPORT OF PLAINTIFFS' MOTION FOR REMAND AND IN SUPPORT OF PLAINTIFFS' MOTION FOR ORDER SHORTENING TIME FOR BRIEFING AND HEARING OF PLAINTIFFS' MOTION FOR REMAND

PAGE 2

7. Attached hereto as **Exhibit "5"** is a true and correct copy of the Proof of Service of Summons and Complaint on PLANT INSULATION COMPANY in the case of *Everett Hogge and Priscilla Hogge v. A.W. Chesterton Co., et. al.*, S.F.S.C. Case No. 452846.

8. I am personally familiar with the records and proceedings that have occurred in this case during the months of May and June 2007. No Judicial Council form Notice of Settlement, no California Rule of Court 3.1385 Notice of Settlement, and no Request for Dismissal has been offered or provided for HILL BROTHERS CHEMICAL COMPANY, PLANT INSULATION COMPANY, QUINTEC INDUSTRIES, INC., or SEPCO CORPORATION.

I declare under the penalty of perjury under the laws of the State of California and of the United States of America that the foregoing is true and correct. Executed on June 4, 2007, in Berkeley, California.

Stephen A. King

Stephen J. Healy

TWENTY-THIRD CAUSE OF ACTION
(Negligence - Clutch & Brake Components)

AS AND FOR A FURTHER AND TWENTY-THIRD SEPARATE AND DISTINCT CAUSE OF ACTION FOR PRODUCTS LIABILITY (NEGLIGENCE) FOR CLUTCH COMPONENTS AND BRAKE ASSEMBLIES, MECHANISMS AND LININGS, PLAINTIFF EVERETT HOGGE COMPLAINS OF FORD MOTOR COMPANY, GENERAL MOTORS CORPORATION and DOES 250-275, AND ALLEGES AS FOLLOWS:

4. Plaintiff, by this reference, incorporates the allegations contained in the First Cause of Action as though fully set forth herein.

5. FORD MOTOR COMPANY, GENERAL MOTORS CORPORATION and DOES 250-275, manufactured or supplied defective clutch components and brake assemblies or mechanisms which were incorporated into various makes and models of automobiles, trucks and vehicles manufactured, sold or supplied by said defendants. Said clutch components and brake assemblies or mechanisms were negligently manufactured sold or supplied in that:

a) The design of said clutch components and brake assemblies or mechanisms incorporated the use of asbestos-containing clutch facings/plates and brake linings;

b) Asbestos clutch components brake linings wear and/or deteriorate during regular and ordinary use thus creating friable asbestos dust, which accumulates in the clutch brake assemblies and/or mechanisms;

c) The design of said clutch components brake assemblies require as a part of their normal operation, use and maintenance that the asbestos clutch components and brake linings be removed and replaced;

d) Said defendants required the use of asbestos-containing clutch components and brake linings throughout the time period 1940-1985;

e) During the removal and replacement of asbestos-containing clutch components and brake linings, asbestos-containing dust was inherently generated because of the design of the clutch components and brake assemblies and/or mechanisms;

1 f) Defendants knew or should have known that the asbestos-containing dust
2 would be generated during the regular use and maintenance of the clutch components and brake
3 assemblies, mechanisms and linings, and that such dust created an increased risk of asbestos
4 disease for all users, consumers, or others who breathed said asbestos-containing dust;

5 g) The defendants, and each of them, failed to warn and/or properly instruct
6 users, consumers, or others of the asbestos-containing dust hazard which existed at the time of
7 regular maintenance or replacement of asbestos clutch components and brake linings. Such
8 failure includes, but is not limited to:

9 a. Failure to place prominent and adequate warnings or instructions
10 in and on the clutch components and brake pads and wheel drums;

11 b. Failure to place adequate warnings or instructions in the owners'
12 manuals accompanying said automobiles, trucks and vehicles;

13 c. Failure to place adequate warnings or instructions on various repair
14 manuals and instructions published by defendants; and

15 d. Failure to provide adequate information regarding the asbestos
16 hazards associated with the regular use and maintenance of the clutch components
17 and brake mechanisms, assemblies and/or linings.
18

19 6. The clutch components and brake assemblies, mechanisms and/or linings
20 manufactured, sold or supplied by defendants failed to perform as safely as the ordinary
21 consumer would expect, even though they performed as designed.
22

23 7. Defendants' use and design of asbestos-containing clutch components and brake
24 linings, both as original equipment and as replacement parts, created unreasonable inherent risks
25 which outweighed the benefits of said use and/or design.
26

27 8. The dangers inherent in asbestos-containing clutch components and brake linings
28 were unknown and unforeseeable to the plaintiff.

1 9. Plaintiff's exposure to asbestos-containing dust, which caused his injury, was
 2 from his use and maintenance of defendants' clutch components and brake mechanisms,
 3 assemblies and/or linings. Said work produced the release of asbestos dust, which plaintiff
 4 inhaled, thus increasing his risk for all asbestos-related disease.

5 10. Defendants' negligence and defective products as described in this cause of action
 6 were a direct cause of plaintiff's injuries, and the injuries and damages thereby sustained by
 7 plaintiff.
 8

9 11. Nothing hereinabove claimed seeks to impose liability on the defendants named
 10 in this cause of action for the products or actions of any third party that may have supplied
 11 replacement brake linings used in the hereinabove described brake assemblies.

12 WHEREFORE, plaintiff prays judgment against defendants, their "alternate entities," and
 13 each of them, as hereinafter set forth.

14 **TWENTY-FOURTH CAUSE OF ACTION**
 15 **(Strict Liability - Clutch & Brake Components)**

16 **AS AND FOR A FURTHER AND TWENTY-FOURTH SEPARATE AND**
 17 **DISTINCT CAUSE OF ACTION FOR PRODUCTS LIABILITY (STRICT LIABILITY)**
 18 **FOR CLUTCH COMPONENTS AND BRAKE ASSEMBLIES, MECHANISMS AND**
 19 **LININGS, PLAINTIFF EVERETT HOGGE COMPLAINS OF DEFENDANTS FORD**
MOTOR COMPANY, GENERAL MOTORS CORPORATION and DOES 250-275, AND
ALLEGES AS FOLLOWS:

20 12. Plaintiff, by this reference, incorporates the allegations contained in the Second
 21 and Twenty-Third Causes of Action as though fully set forth herein, excepting there from
 22 allegations of negligence.

23 13. Defendants' defective products as described in this cause of action did not
 24 perform as safely as an ordinary consumer would have expected at time of plaintiff's use.

25 14. Defendants' defective products as described in this cause of action were used in a
 26 manner foreseeable by defendants.
 27
 28

1 15. The gravity of the potential harm resulting from the use of defendants' defective
2 products as described in this cause of action, and the likelihood such harm would occur,
3 outweighed the cost of feasible alternative designs, including providing adequate warning of
4 such potential harm, including asbestos-related disease.

5 16. Defendants' conduct and defective products as described in this cause of action
6 were a direct cause of plaintiff's injuries, and the injuries and damages thereby sustained by
7 plaintiff.

8 17. Nothing hereinabove claimed seeks to impose liability on the defendants named
9 in this cause of action for the products or actions of any third party that may have supplied
10 replacement brake linings used in the hereinabove described brake assemblies.

11 WHEREFORE, plaintiff prays judgment against defendants, their "alternate entities," and
12 each of them, as hereinafter set forth.

13 18. As to defendants GENERAL ELECTRIC COMPANY and CBS
14 CORPORATION, a Delaware corporation, f/k/a VIACOM, INC., successor by merger to CBS
15 CORPORATION, a Pennsylvania corporation, f/k/a WESTINGHOUSE ELECTRIC
16 CORPORATION and successor-in-interest to B. F. STURTEVANT COMPANY only, plaintiffs
17 exclude claims arising from exposure to turbines at military and/or government jobsites.

EXHIBIT "A"

Plaintiff EVERETT HOGGE's exposure stems from his occupational exposures to asbestos and asbestos-containing products while working as a Pipefitter, Steamfitter and Inspector. Plaintiff was exposed to asbestos and asbestos-containing thermal insulation materials from his job sites, which include but are not limited to the sites listed below.

Plaintiff did all of his own auto repair over the years including brake and clutch replacements. Plaintiff performed friction and clutch work on the following vehicles: a 1962 Chevy convertible, a 1966 Buick, a 1975 Buick, a 1972 Chevy Vega, a mid 1970s station wagon, a 1970s Buick, a 1981 Buick, a 1953 Ford and a 1957 Ford.

Throughout the sixties and seventies plaintiff did drywall installation and repair and assisted others with home construction as well as working on "fixer-uppers" and investment properties. Plaintiff's work included the application, sanding and sweeping of drywall joint compound, the cutting and installation of floor tiles, as well as the installation of well water pumps. Handling, cutting, scoring, abrading, sanding, sweeping and otherwise disturbing these asbestos containing products created visible dust which Plaintiff breathed without protection. Plaintiff EVERETT HOGGE suffers from asbestos-related disease, including mesothelioma.
